

Video Quality Options

Three video versions are provided with different quality/size trade-offs. ****Please test and select the one that loads smoothly while maintaining the best visual clarity.****

Instructions

1. Test all three videos on the website
2. Choose the highest quality version that doesn't cause page lag
3. Verify loading performance on both desktop and mobile
4. Remove unused files from the final build

****Goal****: Best clarity with page load under 3 seconds.
